ABOUT ME

Passionate Frontend Developer & Programming Enthusiast with a strong foundation in C, C++, Python, HTML, CSS, JavaScript, and React.js. Experienced in building responsive, user-friendly websites, e-commerce platforms, and interactive dashboards. Highly motivated to learn full-stack development and contribute to impactful projects with clean code, scalable design, and problem-solving skills.

EXPERIENCE

Frontend Developer Intern

ABC Tech Solutions, Hyderabad

Jan 2024 – Jun 2024

- Designed and developed responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with backend team to integrate REST APIs for dynamic data fetching.
- Improved page load time by 20% through optimized code and assets.
- Assisted in testing/debugging across browsers and mobile devices.

Freelance Web Developer

Remote • Jul 2025 – Present

Self-Learning & GitHub Portfolio • 2025 – Present

- Developed Movie Ticket Booking Website, Weather Dashboard, and StudentSupportHub.
- Used JavaScript APIs, localStorage, and React.js to create interactive applications.
- Applied problem-solving & clean coding practices while learning new technologies.

PROJECTS

Fresh Chicken Market Website

- Built a responsive e-commerce website with cart, login/register system, product filter, and dark mode.
- Implemented localStorage-based cart for item persistence.
- Developed admin dashboard for managing orders and products.

Movie Ticket Booking Website

- Designed a movie ticket booking system using HTML, CSS, JavaScript.
- Features: user authentication (login/register), movie details page, booking form, and dummy payment.

StudentSupportHub (Educational Website)

- Developed a responsive website addressing student problems with interactive sections.
- Included Join Us, Donate, and Volunteer features with mobile-friendly UI.

Weather Dashboard

- Created a real-time weather dashboard using JavaScript and weather APIs.
- Integrated city search, forecast display, and dynamic UI with unit conversion.

ACHIEVEMENTS

- Built and deployed multiple personal web projects on GitHub.
- Self-learned frontend technologies and programming languages.
- Active contributor on GitHub with projects showcasing real-world applications.
